

„Karolina Gwozdzowska in 2015”

Von Karolina Gwozdzowska

Gimnazjum w Szczucinie, Szczucinie; Polen

I am Karolina Gwo_dziowska. I am 25 years-old-Polish woman who graduated the Jagiello_ski University (French philology). I can speak French, English and Italian. When I have some free time I usually cook (I like cooking and I often experiment with Spanish, Mexican, Italian, French cuisine) or listen to music. What I listen is depend on my mood. If I feel really nervous I prefer even hard rock or something like it. But when I calm down and my worries leave me alone I immerse with a pop music. I am a vegetarian. I think that people shouldn't eat meat. It is simply to say why. They kill them to eat them. It's horrible!

I haven't taken meat to my mouth for 10 years and I feel good with it. I don't need meat. I can't understand why people eat it. They hurt animals doing it!

I haven't got a husband, because I have no time for him. Maybe in 4 or 5 years I decide to have children. But not yet.

Now, I'm in France - the country where I have wanted to live since

I was a little girl. I have got my own flat in France. In Poland I had to work really hard to bought it. I'm busy looking for a good job here. It takes me a lot of time, so I haven't time to visit the places, which are the most important for me.

Everybody knows France from the Eiffel Tower, production of wines and perfumes and fashion shows. But I'm getting to know the different and more interesting side of France. I mean the everyday life of common people, the wine connoisseur's work. If I have time to take a cruise around Loire, I'll definitely do it. I think it will be an incredible experience.

I'm interested in fashion so I am getting to know the fashion from wings. It's really interesting to see how all the show is preparing, how long designers must work to do

the perfect fashion show or what they should do to take much more applause than they expected.

Someday, I'll take a map to my hand and make my dreams come true. I'll start sightseeing even the smallest places in France!

But most of all I want to learn French art of cooking. It will be great to have my own really good restaurant. The meals from the entire world will be served in this restaurant. I like watching people who are eating my meals because it makes me happy. If my plans become true I'll employ Spanish, Italian, French and Mexican chefs. So people who come to my restaurant can have an opportunity to "travel around the world" only in few hours. It will be like a power of magic.

I have been a joint owner and a member of the Animal Helping and Caring Association for 5 years. All the members do as much as they can to help homeless and hungry animals. We often do charity concerts and the money from the tickets we spend for new kennels, food for our little friends. There are a lot of people who beat animal and are cruel to them. We try to stop them in what they do. The members of my foundation have got pets from shelters only. We are happy that we can help animals taking them from overfilled shelters.

I have got a dog, which is called Fox. I took him from a shelter 3 years ago. He is playful and extremely loyal. He always shows his happiness as soon as I walk through the door to my flat by wagging his tail and jumping up and down. Only him can make me happy when I come home very tired after a busy day. Furthermore Fox guards my flat making me feel safe and secure. He needs a lot of attention. I must brush him and fed him of course. But this is a small price to pay in exchange for his friendship and loyalty. I think that the person who said that dog is men's best friend is absolutely right.

Caring about animals is our common responsibility.

And you have already met me. If you want to see what I am look like, just have a look at the photo.
